

We are looking for a

Logistics Professional (f/m/d)

About Munich Electrification

Munich Electrification is an innovative company founded with the aim of accelerating the transition to electric mobility. We develop innovative battery management systems for electric vehicles for our global customers. Our international team is composed of highly motivated, exceptional young engineers. We offer a relaxed and friendly work atmosphere with flat hierarchies. As a small and specialized team, we are well-aware of the importance of each individual colleague and support and promote each employee according to their abilities and needs. Our office with adjacent prototype and testing lab is located in the heart of Munich at the Heimeranplatz.

Your Role

As a Logistics Operator/ Professional at Munich Electrification you will be part of the operations team. Together with the Operations Managers, you will be responsible for the logistic activities of our company. Your main fields of responsibility will include the outbound deliveries of goods to our customers (some of the most reputed automotive OEMs), production partners and suppliers. You will also be responsible for the internal logistic activities as the inventory and the intern distribution of goods. Additionally, you will take care to keep our shopfloor and warehouse in the best conditions in terms of material and tools availability.

Your Responsibilities

- Process inbound and outbound deliveries together with our Operations Managers.
- Work on Warehouse maintenance and inventory.
- Organize and purchase material and tools to cover our shopfloor demand.
- Communicate with our production partners and suppliers in regards of logistics.
- Implement and document key logistic performance indicators to contribute to the continuous improvement of our logistics.
- Maintain and optimize the logistic workflows.

Your Profile

- Educational background and/or work experience in freight and logistics with former responsibility in organizing shipments.
- ERP experience in the logistic field, preferably with SAP ByDesign.
- Ability to lift carriages, handle tools and do maintenance repairs.
- Highly motivated, willing to learn and take responsibility.
- Preference for working in teams and strong communication skills (English & German required)
- Driving License

Our Offer

- The chance to be part of a highly innovative, agile, and unique team with the most prestigious customers in the automotive sector.
- A deeper knowledge around electric vehicle batteries, battery management and electronics development
- Healthy lunch and fresh snacks everyday
- Free access to the fitness center right next to us
- Public transport ticket for Munich
- Bike-Leasing via BusinessBike
- An exciting working environment and various inspiring team events
- An adequate and competitive compensation

Ready for a new challenge?

We are looking forward to your application!
